Standard Bank **IT CAN BE..**

Dear National HealthCare Group Stakeholder

The National HealthCare Group is proud to announce a newly forged partnership with Standard Bank to deliver a funding solution that will provide easy access to private primary healthcare.

The product, named **BeWell**, will be marketed under the Standard Bank brand and will be launched with three product options. This solution seeks to give employers the opportunity to provide their employees with access to affordable private primary healthcare services.

Standard Bank will launch this product to its corporate clients, in South Africa we estimate the total number of medically uninsured employees to be more than 5 million.

We believe this partnership will be instrumental in delivering inclusivity and ease of access to primary healthcare for many currently uninsured employees who could make use of your medical services contracted to NHG.

It is through partnerships such as these that we hope to positively impact your business. Please look out for updates from us on further developments.
